Features / Benefits

- Powerful cleaner
- Nonflammable
- Rapid evaporation
- Zero residue
- Proven effective for lead-free processes
- Non-ozone depleting

Applications

- Removal of flux during post soldering
- Cleaning of printed circuit boards, component leads, and surface mount devices/pads
- Screens and stencils

Usage Instruction

For standard aerosol use. This container is compatible with brush system (MCC-ESD). Insert trigger grip hose and locking clip as specified in instructions with original brush system. Direct spray to saturate soiled surface. To clean in hard to reach areas, insert extension tube in spray head to direct spray.

Products with Brush Attachment (1631-5S, 1631-16SB):

Hold can 6-8 inches away. Direct spray to saturate soiled surface. When used as a general cleaner, start at top of area to be cleaned using a sweeping motion, and spray the area slowly, working towards the bottom. To clean in hard to reach areas, insert extension tube in spray head to direct spray. Allow components to dry completely before applying current. Allow liquid to dry before supplying power. This product is not recommended for acrylic, polystyrene, or polycarbonate materials (materials used in such items as television cabinets).
